

WE'RE HIRING:

DATA SCIENTIST

Role Summary

ASEPSA is seeking a highly skilled and innovative Data Scientist to join our Innovation Hub, which serves the US Hospital business. The primary goal of this hub is to leverage analytics and artificial intelligence (AI) to create a competitive advantage, capitalize on new opportunities, and take measured, informed risks. As a Data Scientist in this team, you will play a key role in developing and deploying machine learning and deep learning models that drive business value.

Basic Qualifications

- Strong academic background in data science, statistics, physics, or a related field.
- Minimum of 4 years of demonstrable experience in creating and deploying machine learning/deep learning models with hands on experience in R or Python.
- Proficient in data manipulation and analysis using tools like SQL and pandas.
- Deep understanding of machine learning algorithms, model validation techniques, and performance optimization.
